### \*What is a Magellan Engagement Page?

This is a special page on your website we create, or tags added to an existing page. These tags direct Magellan on specific actions he should take.

They can be used to make Magellan even smarter, directing the prospect to watch a certain video, read testimonials related to the product they are viewing, even have them directly call or text your business.

Think of an Engagement Page as your best salesperson waiting on-call 24/7 with all the information your potential client could want!
